

## 2917-D Kitchen Sink

### 1729-D Double Bowl

I.D.: 29" x 16 11/16"

Depth: 9"\*

\*Depth does not include counter top thickness

The **Gemstone** 2917-D is Gemstone's newest design. With tighter radii, sleek curves, steeper side walls, and narrower sink divider offers more usable floor space at the bottom of the sink than other models. This sink is reversible so the small sink can be on the left or right. The lowered divider bar offers an aesthetic improvement to the sink as well as easier routing and sanding for the fabricator. This European style double equal kitchen sink provides a seamless kitchen sink in any solid surface sheet material, acrylic, polyester or blended. This sink fits well in a 36" cabinet.

**Gemstone Sinks** are compatible and warranted when used with all major solid surface sheet brands with the same sheet warranties.

 **Gemstone** supports conservation and green building practices and may contribute toward achieving LEED® building certification in commercial projects. All Gemstone Sinks use resin containing 15% post-consumer recycled content and 5.5% rapidly renewable materials.

 **Gemstone** sinks are proudly made in the USA.

**Gemstone** sinks are certified by: **NAHB** (ANSI Z124.3)

**UL** in the US and Canada (ANSI Z124.3 & B45.0-99)
