

1729-D Kitchen Sink

1729-D Double Bowl

I.D.: 29" x 16 11/16"

Depth: 9"*

*Depth does not include counter top thickness

The **Gemstone** 1729-D is Gemstone's redesigned 3119-D model. The tighter radii, sleek curves, steeper side walls, and narrower sink divider offers nearly 22% more usable floor space at the bottom of the sink. The offset drains allow the sink to drain better when dishes are in the sink. The lowered divider bar offers an aesthetic improvement to the sink as well as easier routing and sanding for the fabricator. This redesigned European style double equal kitchen sink provides a seamless kitchen sink in any solid surface sheet material, acrylic, polyester or blended. This sink fits well in a 36" cabinet.

Gemstone Sinks are compatible and warranted when used with all major solid surface sheet brands with the same sheet

 **Gemstone** supports conservation and green building practices and may contribute toward achieving LEED® building certification in commercial projects. All Gemstone Sinks use resin containing 15% post-consumer recycled content and 5.5% rapidly renewable materials.

 **Gemstone** sinks are proudly made in the USA.

Gemstone sinks are certified by: **NAHB** (ANSI Z124.3)

UL in the US and Canada (ANSI Z124.3 & B45.0-99)
